GRI-viitekehyksen luonnon monimuotoisuudesta raportoinnin indikaattorit

Tämä liite esittelee eri GRI-viitekehyksen eri versioiden luonnon monimuotoisuus -indikaattorit. Tekstit ovat suoria lainauksia viitekehyksen eri versioista ja niiden alkuperäisellä kielellä. Versioissa 3.0 ja 3.1 indikaattorit olivat samat, joten ne esitellään alla vain kerran.

Eri versioissa indikaattorit ovat hieman muuttuneet. Lisäksi indikaattoreiden tunnukset eroavat versioiden välillä. Tämän perusteella lukija tietää, minkä version mukaan yritys vastuullisuusasioista raportoi. Lisäksi toisessa ja kolmannessa versiossa luonnon monimuotoisuudesta raportoivat indikaattorit on jaettu “keskeisiksi” (eng. core) ja “lisäindikaattoreiksi” (eng. additional).

Ensimmäinen versio - Sustainability reporting guidelines on economic, environmental, and social performance (Global Reporting Initiative (GRI) 2000)

Land-Use/Biodiversity

6.32 Amount of land owned, leased, managed, or otherwise affected by the organisation. Type of ecosystem habitat affected and its status (e.g., degraded, pristine). Amount of impermeable surface as a percentage of land owned.

6.33 Habitat changes due to operations. Amount of habitat protected or restored.

6.34 Objectives, programmes, and targets for protecting and restoring native ecosystems and species.

6.35 Impacts on protected areas (e.g., national parks, biological reserves, world heritage sites).

Toinen versio - Sustainability reporting guidelines (Global Reporting Initiative (GRI) 2002)

Biodiversity

Core indicators

EN6. Location and size of land owned, leased, or managed in biodiversity-rich habitats.

EN7. Description of the major impacts on biodiversity associated with activities and/or products and services in terrestrial, fresh-water, and marine environments.

Additional indicators

EN23. Total amount of land owned, leased, or managed for production activities or extractive use.

EN24. Amount of impermeable surface as a percentage of land purchased or leased.

EN25. Impacts of activities and operations on protected and sensitive areas. (e.g., IUCN protected area categories 1–4, world heritage sites, and biosphere reserves).

EN26. Changes to natural habitats resulting from activities and operations and percentage of habitat protected or restored. Identify type of habitat affected and its status.

EN27. Objectives, programmes, and targets for protecting and restoring native ecosystems and species in degraded areas.

EN28. Number of IUCN Red List species with habitats in areas affected by operations.

EN29. Business units currently operating or planning operations in or around protected or sensitive areas.

Kolmas versio - Sustainability reporting guidelines (Global Reporting Initiative (GRI) 2006; Global Reporting Initiative (GRI) 2011)

Biodiversity

Core indicators

EN11 Location and size of land owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas.

EN12 Description of significant impacts of activities, products, and services on biodiversity in protected areas and areas of high biodiversity value outside protected areas.

Additional indicators

EN13 Habitats protected or restored.

EN14 Strategies, current actions, and future plans for managing impacts on biodiversity.

EN15 Number of IUCN Red List species and national conservation list species with habitats in areas affected by operations, by level of extinction risk.

Neljäs versio - Sustainability reporting guidelines (Global Reporting Initiative (GRI) 2013)

Biodiversity

G4-EN11 Operational sites owned, leased, managed in or adjacent to, protected area and areas of high biodiversity value outside protected areas

G4-EN12 Description of significant impacts of activities, products and services on biodiversity in protected areas and areas of high biodiversity value outside protected areas

G4-EN13 Habitats protected or restored

G4-EN14 Total number of IUCN red list species and national conservation list species with habitats in areas affected by operations, by level of extinction risk

Viides versio - Biodiversity (Global Reporting Initiative (GRI) 2016b)

304-1 Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas

304-2 Significant impacts of activities, products, and services on biodiversity

304-3 Habitats protected or restored

304-4 IUCN Red List species and national conservation list species with habitats in areas affected by operations
